

## How to Set Up Your Mesh (Wired)

## Get Started

First, plug your mesh into a power outlet

## Get Started

Wait for the light to  
flash red

## Connect

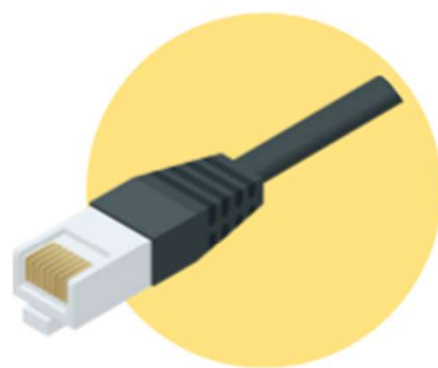

Plug your Ethernet cable  
into the mesh

## Connect

Plug the other end into a LAN port on your system

## Pairing

Once pairing is complete,  
both devices will show a  
solid green light

## Pairing

This may take several minutes
